

The Safety Indicator

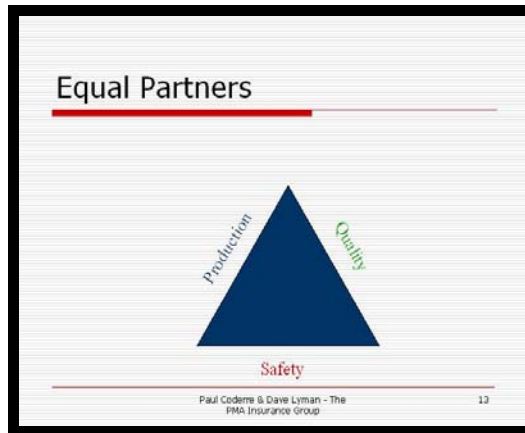

VOLUME 3, ISSUE 1

WINTER 2005

Notes from the January 11, 2005 Consortium Meeting:

Dave Lyman and Paul Coderre from The PMA Insurance Group presented information on Employee/Supervisor Accountability for safety in the workplace. The presentation duo concluded the following about accountability: An organization with clearly defined safety values, vision, goals, roles and responsibilities will have a positive influence on other key business metrics such as production, quality, cost savings and morale. Organizations attain accountability through education, training, and performance measures.

Copies of the presentation are available from Daria upon request.

Consortium Goal: To share information and ideas that will result in safer work environments.
